LA 410/510 - Winter 2015

Sustainable Environmental Design in Asia

This seminar has helped five students gain their internships in China and Japan in 2012-14.

4 Credits

LANBIN REN, PHD

lren@uoregon.edu

The seminar focuses on innovative concepts, policies, and design implementation related to environmental design in selected Asian countries such as fast developing areas and deteriorated war zones. Weekly topics include housing, environmental degradation impact, urban renewal, rural development, and more. Students will have opportunities to work with professionals from Asia.

By the end of the course, students should be able to:

- Create their own definition of sustainability through the lens of environmental design
- Apply sustainable approaches to environmental design related issues

ALL MAJORS are welcome. No design background required. Plus,

Asian Snacks will be Provided
